

Blue Creek School Group Exercise Covid-19 Protocol

- Enter the main door only.
- Masks are worn at all times regardless of immunization status, exception is during exercise time.
- Sanitize as enter the building (There are two stations on the left wall as you enter the building, and one directly inside the gym door to the right).
- Participants will be staged 6 feet apart.
- Number of participants is limited to the ability to respect 6-foot social distancing.
- All equipment will be sprayed at the close of a session.
- Spray is available on the gym wall to the right of the lunch window (This is sanitizing spray that can either be misted and left on or wiped down).
- Sanitizing wipes are available as needed from the school.
- Common areas such as light switches, door handles, etc. should be wiped down before leaving (Instructors will be responsible for this after class).
- Restrooms: the only restroom to be used is the larger bathroom just down from the office, not the staff bathroom (Third door on the left).
- Travel should only be from the front door to the gym with the exception of use of the bathroom. This will limit the areas of potential exposure. It will also limit the number of areas the cleaning crew has to wait to clean.
- No classrooms will be used at this time.
- If you or anyone in an exercise group tests positive for COVID-19, administration must be notified as soon as possible. This is regardless of immunization status as someone immunized can still contract COVID-19.
